

1ST WORKSHOP ON ADVANCED BIOMATERIALS AND BIOMEDICAL APPLICATIONS

UNIVERSITY OF PATRAS
NETWORK FOR
ADVANCED BIOMATERIALS

CONFERENCE & CULTURAL
CENTER OF THE UNIVERSITY OF
PATRAS, 5 MARCH 2010

The University of Patras network for “Advanced Biomaterials and Biomedical Applications” is organizing a workshop on “the recent progress in the field of Biomaterials”. The workshop will take place 5th of March 2010 in the Conference & Cultural Center of the University of Patras, Greece. The emphasis of the workshop will be to introduce the field of Biomaterials, including important concepts and frontier research areas.

Topics to be covered in the workshop include: biomaterials preparation & characterization, biocompatibility studies and quality control, drug delivery methods, surface-associated microbial life and biomaterials application in cardiovascular medicine, orthopedics and urology. The detailed program of the workshop and further information for the event can be found in the network web-site: <http://biomatnetwork.upatras.gr/Events.html>

The participation of all students, Phd candidates, researchers and university members involved in the field is particularly welcomed.

The network coordinator
Prof. Y. F. Misirlis
